**A K-TEK™ product for APPLE II™ computer systems**

The president of earth's international space exploration committee has ordered you to live on the moon for sixteen months and to bring back samples of a highly potent energy mineral reportedly found there. You've discovered a large cache deep in the folds of a shadowy valley. It's been tested and proven rich beyond comprehension. You're breaking camp when your little troupe of explorers is attacked by strange ships. Where are they from? Fight your way to safety with all the tricks at your command. Watch that dangerous magnetic field! Eliminate the aliens and go HOME!

The logo features the word "KTEK" in a bold, stylized, blocky font with horizontal stripes. Below it, the word "Software" is written in a cursive script. The entire logo is set against a background of horizontal blue and grey stripes.

### **TO LOAD:**

Insert diskette into disk drive and close the drive door.  
Activate hardware. Program loads automatically.

### **TO PLAY:**

Man your flying moon tanks and shoot your way through hordes of attackers from another galaxy. Collect points based on the number of enemy hits. You have just 5 tanks to start. Collect additional ships by destroying entire alien screens. Eliminate all aliens for best score. You can move anywhere on the screen.

### **LEVELS OF PLAY:**

Five levels are programmed. Aliens move differently on higher levels. You move slower and fire less frequently.

### **HINT:**

Your craft is magnetized toward the left, so take care!

**REQUIRES:** Apple II™ Computer, 48K Disk Drive & Joystick.

## **WARNING:**

Unauthorized reproduction of this recording is prohibited by Federal Law and subject to criminal prosecution.
